

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

Thomas M. Miller, M.D.
Acting State Health Officer

February 5, 2016

To whom it may concern:

Dawn Technologies Corporation's employees have been very successful in providing software services to our IT Bureau. They have been very instrumental on many successful projects since April 2006 and provided exceptional services for the State of Alabama Department of Public Health. Some of the major systems they provided services include Integrated Medicaid Billing System, Decision Support System, Integrated Eligibility and Enrollment System for state of Alabama and Electronic Health Record. Their employees provide complete software solutions which include architecture, design, development and implementation of Enterprise Applications. The services provided by Dawn employees are exceptional, delivered on time and cost with quality IT work which helped us in cost savings and increased revenue to the Department.

I recommend their IT services and wish them good luck.

A handwritten signature in blue ink that reads "Regina L. Patterson".
